

Web Programming - 1
Assignment 1

Due Sept 16th 2014

You are tasked to create a site from scratch. It should have the following:

A homepage, About page and Blog page, each page should have

- Navigation (links should link pages)
- A Header
- A Footer
- A Main content area
- A sidebar

The Blog page should have 3 blog posts

Each blog post should have a title, a brief description about the post, and a link to read the whole article, the link can just be a # for now.

Mark breakdown:

Completeness of site: /15

Clean code: /15

Proper use of HTML tags: /20

Total: /50
